	Examiner TIMOTHY M. SPEER	Art Unit 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chang (USPN 6,805,952) for reasons of record in the Office Action dated 01/07/09 at pages 2-3, which is incorporated herein by reference in its entirety.

Response to Arguments

3. Applicant's arguments filed 04/07/09 have been fully considered but they are not persuasive. Applicant asserts that it would not have been obvious to employ the presently claimed "zirconium alloy" support. Applicant asserts that disclosure of the genus "metallic materials" in Chang does not suggest the claimed species.

4. Applicant is merely claiming any alloy containing Zr. Chang broadly teaches that metallic substrates, such as those including Al, may be employed. Moreover, Chang contemplates use of Zr containing substrates by disclosure of zirconia. Given the breadth of the present claims, it is the Examiner's position that it would have been obvious to one having ordinary skill in the art to employ a metal alloy containing Zr, as presently claimed. Such alloys containing Al and Zr, for instance, are old and well known in the art. Applicant is claiming no specifics with respect to the metallic substrate, only that it comprise Zr. Accordingly, the arguments filed on 04/07/09 are not persuasive and this ground of rejection is maintained.

Allowable Subject Matter

5. Claims 4, 7-19 and 30-44 are allowed.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
